---

I am writing to the parliament to strongly object to the submission which is coming before Parliament to legalize abortion.

I believe that a foetus is a living, feeling being from conception and ultrasound examinations demonstrate this. It is a sad day when this behaviour is not only allowed to be lawful in our country, but encouraged, instead of helping those in situations wherein they think that are not able to cope. We are on the slippery slide into oblivion when, we as a society, allow such practices. And I have also found that a woman who goes along this route, has turmoil, sadness and regret for the rest of her days.

This is indeed, a short sighted, and political grabbing opportunity for parties in the parliament. If the mother of Rob Pyne (and others of his ilk) chose this practice, he (and they) would not be here to try to make these decisions. This is not JUST the decision of the mother! Any conceived child has the right to be born and grow and enjoy this life, giving joy to those around them.

Regards,

Damien Vesnaver
