I am writing to say that the reform to the abortion law MUST NOT be allowed. If these changes are made, then it we who are playing god in deciding which child has the right to live or not. You think that late term babies that are aborted feel nothing? In fact, they do feel. Abortion is just a form of legalised murder and you are letting doctors get away with it. And no, it is not and should never be called a fetus as it is a human being that ha been created by the parents. I, as well as others in this state, do not agree that the reform should go ahead. We talk about the rights of the parents, but what about the rights of the child? That child is in danger if the decision to abort goes ahead. As a social Work student and as a Christian, this reform and this abortion law are repugnant. DO NOT ALLOW THE REFORM TO GO AHEAD!!!!!!!!!!!!
