Sir/ Madam

It amazes me that in this day and age you'll want to legalise the murder of defenceless babies.. Religious beliefs apart there is enough scientific evidence that documents how life is from the moment of conception, the heart beating from seven weeks etc. As the bible says woe to those who devise evil by law. . . Dont invite the wrath of God on the nation of Australia. A country that cannot protect its most defenceless citizens is in a very bad state.

Please follow the man on the cross and defend life. He only offers salvation, mercy and love to all who ask.

Thanks
