Subject: Abortion Bill Proposal by MP Rob Pyne
Date: Tuesday, 28 June 2016 11:15:30 AM

To Whom it may concern

I am TOTALLY against such a unthinkable & despicable Bill that would allow the termination of babies through late term abortions. This totally violates the precious baby's RIGHT TO LIFE

How is this kind of thinking still happening in this day & age when there still remains the option to use contraception in the various, incredibly easy methods... & to accept the responsibility to deliver this little life & either adopt the baby out or to let nature take its course - no matter how difficult these decisions are? Destroying a 'unseen' life to ease a conscience or relieve a possible difficult situation... Where is moral or ethical obligation ?
