---

To whom it may concern, Please use your conscience vote to say no to the new abortion law. I have a 21 year old whom I had the chance to abort, but I could not comprehend killing something so alive, though inside me, still a life of it's own. I was subsequently rejected from my family and lost a great job opportunity with my choice. All these years later she is a wonderful person, one in a million, my best friend. If an unborn person is viable for live, why crush or poison them? Why not adopt out? I can' t comprehend how a a new born baby is left to die in a room just because one person doesn't want the baby. There must be other choices. Please choose to say no to this abhorrent law. Regards Nanna de Beer .
