**Date:** Tuesday, 28 June 2016 12:00:53 PM  
**Importance:** High

---

To Whom It May Concern,

I am writing on behalf of myself, husband and three daughters and husbands of voting age.

We are requesting that you please block this bill to legalise abortion in Queensland.

No civilized society should condone one human to intentionally harm or take the life of another human without punishment, and abortion is no different.

The babies killed in abortions are live human beings by definition as they have human DNA, and are alive. Technology has enabled us to view the life of a baby from conception through to birth. To state that a life because it is in the womb is not human is ludicrous.

Many cultures that Western Society would deem less civilized count the time in the womb, and a child is born as a 1 year old.

Health workers have committed time and money to save lives and can save a premature baby at 21 weeks gestation.

It is a conundrum – Do we want to have our cake and eat it too? What a contradiction! On one hand we have society committed to saving life and on the other the hospital down the road says 'Come in and we will kill them.'

Is it not true that if you have a car accident and accidentally kill a pregnant woman then you are consequently charged with 2 murders.

The laws have become mockeries and don't match up with the value of life that a civilized country should have.

Our laws do however appear to have a higher value on money than life and bowing down to the so-called powers that be.

If babies not wanted then instead of killing them make the parents give them up for adoption.

The consequence needs to lie with the offender. Oh but that's right – consequences' are always someone else's these days.

We are sick of minorities with their pathetic selfish agendas running the show and Government bowing down. It is seriously concerning that policies do NOT match values.

Our family are some of little people who sit back quietly but we have had a gut full of the degeneration of our social values and Government legislations and request some common sense.

Tough decisions don't always make you popular but if they are based on the basic values of life and what our country is built on then it takes gutsy people to make them.

Kind Regards
