Subject: Objection to Abortion Bill being tabled by Rob Pyne MP
Date: Tuesday, 28 June 2016 4:18:49 PM

Dear Sir

I am writing to say that I do not agree with the proposed Abortion Bill that is being proposed by Mr Rob Pyne. I do not agree that Abortion should be something treated as just the same as going to a drive-through take-away restaurant. There are many ramifications in respect of Abortions. I know. I am an adopted child. I am now in my 50's. I suffered miscarriages and terminations due to medical requirements. It had an enormous effect on me.

Don't allow for this Bill to be passed. Abortion should never be a first option. There are so many parents who so desperately desire to have children and would be happy to adopt. Don't take a life just because it is easy to do with a swallow of a pill or an injection. Please consider this - once a foetus is produced it is a life. Everybody has the right to live. Unless there is undeniable evidence that the mother's life is a risk from the moment of inception, there should be no question that the baby should be allowed to live.

Yours faithfully

Janelle Berry
