Dear sir/madam

I am writing regarding the terrible fate of innocent, tiny human beings, whose lives are being taken away & whose bodies are discarded as just a bit of trash.

These babies that are being aborted at late term, even earlier term, are being murdered... Literally! Many could be viable human beings but are not given the chance to live.

Were these babies born full term, take a breath & then be killed, the killer would be charged with murder. What is the difference?

Some of these late term babies are just left to die! It breaks my heart!
