Subject: Abortion Reform bill
Date: Tuesday, 28 June 2016 4:49:39 PM

To the Research Director, Health, Communities, Disability Services, Domestic and Family Violence Prevention Committee,

I oppose the proposed abortion reform bill coming before the committee.
There are already adequate provisions for women to have abortions where circumstances would reasonably warrant it.

The wholesale unrestricted abortion proposal, even up to full term of pregnancy, would result in the mass destruction of unborn babies as time goes on, and given the unchecked direction that society is going in.

No one in their right mind would condone such wilful carnage.

Yours Sincerely,
Allan F Mackenzie
