---

To Whom this Concerns,

Please consider...in a society where the destruction of trees to create farming land for sustenance is severely punished, where the Great Barrier Reef is considered almost sacred and damage to it would be punished, where one would be charged if found to be inflicting any cruelty on any animal, where parents are not allowed to smack their child for bad behaviour, the killing of a foetus is considered to be OK.

How can any person in a responsible position of power to change laws agree that the murder of a foetus in utero is acceptable. A foetus which should grow to become a person of value and worth whatever its personality, its character, its flaws, its intellect, a person worthy of love and acceptance and life.

Please do not make abortion legal at any stage of its development. It is murder of a person.

Yours sincerely, Lorraine Eastwell
