---

I wish to register my opposition to the reform on the basis that I feel it will make a bad situation even worse. I work as a GP and have seen many women who feel they have no option but termination basically because of lack of support and isolation. Termination is put forward by many in society as the responsible thing to do when faced with an unplanned pregnancy which exerts a lot of pressure, these women are then prey to post abortion PTSD, depression and regret though this is widely ignored as it doesn't fit with how people are supposed to feel after they've 'fixed their problem'. I can only imagine how much more traumatic it would be for all concerned if termination became legal up to birth and I urge you to oppose this reform.
