Debbie Hutton

Ive always wondered when a 'growth of tissue' becomes a baby!
Surely it was always a baby!
Abortion is wrong on so many levels,
the emotional after effects

like the preposed changes to the marriage definition, the only thing abortion does is to destroy our society from its very foundations out.

Society and community have its beginnings and existence around the family. Mother, Father, Children.
Abortion and the redefinition of marriage destroys every reason to build and sustain a community.

Stop abortion!
Stop the redefinition of marriage!
Give us our future back.
