Abortion Law Reform Committee

Dear Sir/ Madam

We wish to voice our strong opposition to the bill to change the abortion law in Queensland.

Frequently when one person demands their rights then another will lose their rights and in this instance a tiny defenceless baby is considered a thing of no worth and is being denied the right to live.

Adolf Hitler is remembered for his systematic extermination of millions of people and it seems our modern society is much the same.

Please vote against any liberalisation of Queensland abortion laws.

Yours faithfully

Robert Peters
