> I wish to oppose The Abortion Bill that MP Rob Pyne is proposing. It is unlawful to take the innocent life of another human being.
> I and many people believe the murder of a baby in the womb is no different to the murder of a baby after it has been born. Doctors have taken an oath to preserve life, so how do some of them justify taking the life of a baby. If you decriminalise abortions it makes it no less a murder and the blood of these little ones will be on the hands of those who perform them and of all those who vote for this horrendous bill that has been proposed.
> Has our nation of Australia sunk so low that little babies, who should be safe in their Mother's wombs, are to be dragged out of their mother's wombs, sometimes piece by piece and still alive. Australians who can't have children have to go overseas to adopt and this proposed Bill is to legally kill off the babies we have in our own country.
