Subject: Vote against proposed changes in abortion laws
Date: Wednesday, 29 June 2016 10:19:25 PM

To whom it may concern,

I am against the proposed change to abortion laws. I also feel that current laws should be enforced properly. Reasons for this include:

- > modern technology leaves no doubt that life begins at conception
- > the unborn child can feel and hear
- > the woman's choice involves the killing of her child
- > abortion only brings with it sadness, grief and lasting mental issues
- > the birth of a child in contrast brings happiness into peoples lives
- > a nation that feels it is acceptable to kill its future citizens will destroy itself
- > the talents and abilities of those killed by abortion is a great loss to society

Kind regards,
Jene Johnston
