---

Dear Committee Members, I am writing to you in the hope you will not agree with abortion . From the moment of conception ,a human sperm marries up with a human egg ,that makes a human cell not a BLOB and human life begins which is really amazing .And God Almighty made it that way . You can google this man aka murderer , his name is Kermit Gosnell , TooManyAborted.com and you will see how horrific abortion really is ,these little babies fell pain sometimes they are ripped out of the womb in pieces and if they are still alive the doctor just kills them as this monster Gosnell did ,he became a millionaire murdering little babies and make no mistake about this it is murder.As for a Women's Right to Choose, her responsibility should start before the sexual act not after .no "opps" to late for that .And to say yes will bring this Nation under severe judgement from GOD . Even in rape .... Rebecca Kiessling, conceived in rape her mum kept her and gave her life , you can google Rebecca as well . There are also many Dr's who realised it was wrong to do abortions so they stopped . Is It a women's right to allow her unborn babe to be ripped from the womb and murdered ?? she also puts her own life at risk. Please say NO ,Responsibility is the way to go . Thank you my name is Trisha Clouten my address is.
