Dear Committee Members,

I have only just read that you are considering amendments to the current abortion bill which is in the Criminal Code at present. Good lets keep it that way please.

However evil is about to strike in the form of a bill proposed by one Queensland MP Mr Rob Pyne who has I am advised introduced an amendment to the current legislation. May I quote: "The bill is extreme with no gestational limit to abortions and no provision for conscientious objection."

May I also suggest in this regard to this man and other members of any parliament who vote in favour of such laws: "***Honi soit qui mal y pense***" (***Evil he who evil thinks***).

I have spoken to a number of women who have had an abortion and all of them regret their evil actions. As a mother to be they elected to think only of themselves and have the baby murdered and torn from their womb by another individual perhaps under the title of: a surgeon.

Most people no matter what they educational claims or qualifications cannot see past the end of their nose. They do not live by the laws of God they cannot see the vastness of eternity awaiting them and their evil actions. They simply have no concept of what lays ahead for them in just a few short years!

Further to this women do not have the right to abortion hence the right to murder a beautiful defenceless baby. They have no right - law of the land or no law of the land - to murder another person who has a beautiful life awaiting them. They were created by Almighty God as his own children. He will justly condemn those who kill the innocent in the womb. In this regard again people unfortunately cannot see past the end of their nose!

If people only knew the facts the true irrevocable facts they would know that God indeed is present with us and that: "Outside the Catholic Church there is no salvation"

Look also at just a few facts in regard to the presence of Jesus, Our Lady and St Joseph:-

- (i) The Holy Shroud of Jesus*
- (ii) Our Lady of Guadalupe*
- (iii) Amazing St. Joseph Staircase*

Added to this of course is the infallible doctrine of the Catholic Church - which has not and cannot be proven wrong yet every other religion in the world can be proven wrong and that they are not the religions of God. The Catholic Church condemns abortion and murder - full stop.

So in all essence how can any parliamentarian vote for such a heinous act - to condone murder - and live with themselves with a conscience and rich in the knowledge that one day they will fall headlong into Hell for all eternity! I ask you.

Woe woe woe to those who vote for this proposed bill and those who assist them in any way in it's progress.

Even I can see the treachery in this proposed bill.

Yours in Jesus Our Lord, Mary the Ever Virgin Mother of God and of St Joseph her most chaste spouse.

Garry Connolly

P.S. I hope that you read and consider this late submission unfortunately due to my late knowledge of this proposed act of the Queensland Parliament.
