Subject: Protect the unborn child against this ultimate abuse!
Date: Thursday, 30 June 2016 11:03:17 AM

Please take on board the evidence and experience of many former pro-abortionists who have totally changed their minds on this matter and now firmly resist the slaughter of unborn children.

Yes, that is a harsh word, but it is the truth. We hear more outcries against ill-treatment of animals than we do about such a crime against the unborn child. This is such an indictment on our nation!

Many years ago, I saw a video of a 'foetus' - a living human being – actively avoiding the abortionist's tools. Sadly, the child succumbed to the suction pressure in the end. A most vulnerable, defenceless human life!

Defeat this move against humanity – let's have none of this so-called reform! It is a true crime against humanity!
