Dear Committee,

Abortion Law Reform

As Victorian citizens, where we already have liberal laws allowing abortion right up to birth, I strongly oppose any introduction of such laws in Queensland.

Here some two or three hundred fully grown babies have recently been aborted just before birth, which is a crime beyond belief. The same will happen in Queensland following the introduction of such a draconian law, despite the fact that babies can be kept alive after 20 weeks gestation.

As a consequence of the contraceptive mentality, with its many practical failures leading to abortions, our society is being drastically depleted to the extent that even adoption of children is now virtually impossible.

Therefore we strongly object to this proposed bill.

Yours faithfully,

Dr. Thomas and Susanne Kalotas
