**Subject:** Against Rob Pyne's Abortion Law Reform Ammendment Bill 2016  
**Date:** Thursday, 30 June 2016 12:40:22 PM

---

Dear Committee Members,

Please find below my submission to the enquiry into the Abortion Law Reform Amendment Bill 2016.

I urge the committee to actively recommend AGAINST Rob Pyne's Amendment Bill. This evil Bill makes it even easier to kill defenseless preborn babies in Queensland and leaves unborn infants with no legal protection until after birth. Furthermore there is evidence to suggest that once abortion is decriminalized in Queensland, Late Term will Abortion will substantially increase, and may be used for sex selection!. I believe a baby is a living person from the moment of conception, this is clearly stated in God's Word, If anything Politicians should be looking to BAN this barbaric practice. This equates to Child Abuse!!. As a Nurse for 50+ years I have delivered and cared for many precious premature babies and find it hard to comprehend that medical people and parents could kill living babies regardless of reason.

The Politicians could put their energies into developing an Amended Queensland Adoption Bill to assist childless couple and others to be adopt children and give them good homes without the problems of adoption today, rather than making it easier for living babies to be slaughtered before a first breath.

Thanks for your consideration. God Bless Valmai Dimond
