To whom it may concern

Having read what this abortion law reform bill is wanting to do in changing the current law bill is so distressing. This new bill will make our state of Queensland the worst in the world concerning the abortion law and taking a baby's life.

Many years ago I had an abortion which has affected my life. People say you work through it but you really don't you always have an empty feeling that you carry. This bill is so cruel saying it is okay to take a baby's life even near full term. There are so many women who cannot have a child that would love to adopt a little baby.

My email is to ask you DO NOT LET this bill be passed through parliament but to look into other ways to protect both the mother and the baby in a difficult circumstance.

As the present government of Queensland you are there to protect and look after all people including these little babies that this bill wants to abort and take their right to live.

Thank you  
Regards  
Marilyn Sedgwick
