To Whom It May Concern,

I am writing to say that I am totally against the proposed changes to the abortion laws. I don't believe that abortion should be allowed at all, let alone so late in the pregnancy. I believe that a baby is a baby from the moment of conception and they should be given every chance of survival just like you and I were. Who's going to stand up for the rights of the babies being killed? We should be focusing on the adoption laws and be making adoption easier so these little ones can have a chance of growing up in a home where they are dearly wanted.
