To Whom It May Concern:

I am writing in strong support for the Abortion Law Reform (Woman's Right to Choose) Amendment Bill 2016. It is time that Queensland joins the rest of Australia and decriminalises abortion. The current laws are archaic, unclear and create a two-tiered system in which disadvantaged women, such as working class, rural and regional, or culturally and linguistically diverse, have extremely limited access to this vital medical procedure.

Regards

Joshua Nicholas
