Any form of termination of pregnancy is a termination of life.
In 50 years, given the rate of non-Muslim birthrate against Muslim birthrate, this entire country will be Muslim, a loss of democracy to Sharia law which is **not democracy**.

As an Australian my support goes to those who wish to support right to life, to save those in the womb the most vulnerable of new Australians.

Please do not allow legislation which will curb the birth rate of Aussies, who battle to keep heads above water, to keep Australia free, with rule of law for the benefit of those who build families.

Your support for right to life is support for democracy, for Australian way of life, and most of all for saving of precious life in the womb.
