Good afternoon,

I am really upset and troubled that full term abortion for any reason would be considered , it is just not right. I have four young children myself and have two friends who had abortions. I have seen first hand the effects on the mother having an abortion both mentally and physically. I have had friends who were recommended to have abortions for various reasons and yet in every case they went full term with their pregnancies and they were glad they didn't give in to the medical pressure.

Please do not allow this barbaric treatment of these little children. We need to be offering better support to mothers and families in difficult situations. Priceless Life Centre offers wonderful support for women in these situations and we should be looking to encourage this organisations not offering to kill new life.

Yours sincerely
Miriam Lane
