To Parliamentary Committee  
Abortion Law Reform

I would like to express my objection to Mr. Rob Pyne's Private Member's Bill removing abortion from the Criminal Code.

He speaks of a women's right to choose. In other words a women's right to kill, to murder the baby growing in her womb. I find this repulsive and an evil act.

If it is a criminal act at the moment, why haven't those who have committed this crime, been brought to account?

With respect,
