Hello Committee on Abortion.

Late Term Abortions of children seems to be a emotive action, some of the aborted babies live for a short time. There are many childless couples that can take these children and give them a good home and love them.

I feel that particular late trem abortions in an incorrect manner of solving a issue.

A woman should not have the right to have authority , the child has a right to live and not die.

for your consideration .

james Weeks.
