Subject: Abortion Law Reform Amendment Bill 2016 Submission
Date: Monday, 27 June 2016 5:14:44 PM

To All Concerned,

I am directly opposed to the Abortion Law Reforms, for (and not limited to) the following reasons:

Abortion ends the life of a child, in the most barbaric of ways. It IS legalized murder of an innocent being which should be protected. No one should have the right to take anothers' life.

Questioning the effect Abortion has on the mother; there is a lot of evidence that abortion affects the mother both physically and mentally. Possibly causing future fertility problems, mental health issues, cancer, and earlier death than their peers.

Could there be greater resources and support for expectant mothers? making adoption more straightforward and accessible; baby safe havens for unwanted babies.

All life is precious, and the passing of this Amendment Bill is amoral and unethical. Please listen to your conscience, and realize that all life is precious, and it is our job to protect the unborn, and their families.

Yours Sincerely,

Sharon Ardrey
