Subject: Please protect our unborn babies,don't kill them!
Date: Tuesday, 28 June 2016 1:29:31 PM

Dear Committee Members,

I wish to make a submission in opposition to the Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016, and I request that you recommend against it. The Bill which allows abortions right up to the day of birth, and for any reason at all, simply put, makes the termination of human life legal. It is presently illegal to do so in Queensland and this is how it must remain. Every life is valuable and every person has the right to live, just as you and I were allowed that right. At some point we all were defenseless and voiceless unborn babies, I thank God that someone gave me the chance to live. Yes this bill is about Women's right to choose! This bill will give women the right to legally choose to kill their babies. This is a right which should never be allowed! Babies are real people who feel real pain just like you and I. All human life is sacred and valued. Abortion devalues human life and sends a message that certain types of people are disposable. Medical procedures are meant for protecting and preserving lives, not for destroying them! Abortion procedures not only destroy babies, but they can be very dangerous to women, most often causing permanent physical, emotional and/or psychological damage. Because Queensland is a state which considers all life valuable and pursues fairness and equality for all individuals, please dispose of this bill and recommend ways to likewise protect the defenseless and the voiceless unborn babies!

Thank you for your consideration.

Sincerely,
Carmen Douglas
