Subject: Abortion Law Reform Amendment Bill 2016 - submission AGAINST
Date: Thursday, 30 June 2016 3:57:50 PM

This email is my submission against Rob Pyne's Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016.

If passed I believe this Bill will be significantly detrimental to the moral and ethical growth of our country. As a new mother, I have carried a life within my womb and from conception this child has been in control of its own development, if this child was just a "clump of cells" then how come the movements I felt were out of my control, these babies are human babies, they deserve the right to live and become amazing additions to our world.

Abortion should not be treated as a means of birth control, it is murder and the mothers of these babies that have been aborted will forever have physical, emotional and moral hardships in life. These mothers need support not given the option to murder another human life.

Please I urge you to accept my submission AGAINST this Amendment Bill 2016. Babies should have the right to choose life!

Yours sincerely,
Chantelle Lanzon
