To the committee

My name is Jay Beatty and as a result of my direct communication with Rob Pyne I vehemently oppose the proposed abortion law before the parliament.

My reasoning is due to the fact that Mr Pyne does not realise the difference between an abortion and a miscarriage or what horrific consequences his law could lead to, including the murder of full term healthy children.

Please see the below copied discussion I had with My Pyne over "Messenger" below.

Here is my correspondance with him...

Me:- G'day Rob Just listened to your interview on 4BC. Fullterm abortions as a starting point for discussion. You can't be serious. When is it considered murder my friend. You speak about the rights of the mother to do with her body as she wishes. By inference you are saying you are happy to consider the full term 'body' inside her has no rights - only a death sentence. Unbelievable...

Rob:- No that is not the case. Late term abortions happen when their is no life inside. Very tragic circumstances for the mother who was hoping to have a child.

Me:- That's not an abortion. That's a miscarriage. Yes very tragic. Abortion is where a healthy child is murdered in the womb by the surgeon and then extracted once the child has died. The whole thing in this case is more than tragic, not just for the mother, its an horrific brutality.

Rob:- Yes and it does not happen late term. Women go late term because they want to have a baby. Have you read any medical papers on this or not?

Me:- I have read plenty of papers and articles as well as seeing many videos. Surely no one is denying a 'late term' abortion because their child has died inside of them. We are no talking about a miscarriage regardless of the age or term of the foetus, we are talking about the termination of a healthy child even up to full term. This is the disgrace of it all.

Rob:- That is not true and never happens. You are a fear mongerer by the sound of things. If you have proof, produce it. As if any doctor would do this. You are just crazy.

Me:- Not fear mongering. Your bill is opening this potential for Qld. And yes it does happen. The Victorian MPs this week have just affirmed the practise of allowing full term abortions. Let's not stoop to name calling. I am certainly not crazy my friend. Doctors in Victoria are allowed to go down this road that you have just said that is inappropriate. Let's not allow it in Qld.

This is where the correspondence finished.

Surely you would consider this correspondence astounding. You can clearly see from this correspondence that Rob Pyne has no basic understanding between an abortion and a miscarriage. He even agrees that late term terminations should ever be done. Even though that's exactly what the Victorian Parliament has allowed. A shameful and evil disgrace.

Please do not make an already tragic situation worse.
This atrocious bill should not even be considered based on the above logic from the man
who tabled it.

Kind Regards

Jay Beatty
