I am writing to register my **concern and objection** to the abortion law reform bill which removes existing safeguards for the mother and child, because I believe that it:

- would allow unborn children to be killed right up to moment of birth
- ignores serious physical and psychological effects of abortion on women
- could coerce doctors and nurses to perform a barbaric procedure against their consciences
- dismisses overwhelming community opposition to changing the law
- fails to address the desperate plight of women who tragically see abortion as a solution
