**Subject:** [SPAM ?] Abortion Bill - Rob Pyne MP

**Importance:** Low

[REDACTED]

My wife was advised to abort 3 of our 6 children by medical staff, who advised strenuously that it was their DUTY to advise against her giving birth. (deformities, mongloid, heart defects)

One of those 3 did have difficulties but is now a lovely wife and ALL 6 are well and happy citizens contributing to the wealth and happiness of this Nation with families of their own.

What a sad indictment on our society when we can decide who lives and who dies! We can't condone the Death Penalty but we can call murder - ABORTION legally!

Worse still that we can suck a human life to bits, an arm, a leg, an eye, Or, scald it to death with chemicals, INSIDE the place of nurture / protection / safety, all in the name of compassion repeat COMPASSION.

Politicians are there to represent ALL citizens. NOT a citizen you say. Tell that to the mother who has just been jailed for leaving her new born in a drain. WHO is holding WHO to account for the 27 babies aborted outside the womb and LEFT TO DIE in a hospital.

COMPASSION doesn't cover it. Call a spade a spade and it comes out MURDER!

This proposed bill is an insult to intelligence and must be rejected in it's entirety.

P.S. Note that Mr Pyne was obviously born to a loving mother because he is still around to advocate such draconian measures.

Yours Sincerely,  
Noel Huxham
