Dear Tanya Smith

Re Robert Pyne's Private Bill to
further liberalise abortion law.

I am deeply concerned about the
possibility that this Bill could pass
through Parliament and become law.

The far reaching serious
consequences of abortion and its
effects on woman, men, siblings,
society as a whole are huge. All
this research has been done over
the years in many countries, and
is all available in a book on
line by Thomas Strahan called
"The Detrimental Effects of Abortion".
All politicians should read this
book and acquaint themselves
with the facts.

Yours Sincerely
Marlene Dwyer

Dear Mr. Kelly,

Re Rob Pynes's Bill to further liberalise
abortion laws in Queensland.

I am deeply concerned that there
is a possibility of the above Bill
becoming law if it is introduced.
Years of research reveal the
tragic consequences of abortion
on women, families, fatherhood,
the wider society. This is well
documented in a book
available on line called
"Detrimental Effects of Abortion"
by Thomas Shannon. I
urge you to read it and
encourage other members to
do the same. You all have a
massive responsibility in
your position.

Sincerely yours,
Marquerite Dwyer

20 June. 2016.

Dear Ms Linard,

Re: Robert Pyne's Abortion Bill
to further liberalise the existing law.

I am deeply concerned that
there are plans to further liberalise
the availability of abortion in Finland.
Whilst the rest of the world in
many instances is becoming aware
of the tragic consequences of
abortion for the baby, the woman,
the father and the wider Society,
and therefore becoming more pro-life,
Society here in Australia seems to
be turning its back on the results
of so much research into the
negative consequences of liberal
abortion laws.

Please acquaint yourself with this
research before you support the passing
of this Bill.

Yours Sincerely
Marguerite
Dwyer.

Dear Mr Clamp,

Re: Rob Pyne's Bill to further
liberalise P'lands Abortion laws.

In relation to the above possibility
that this Bill will be introduced,
I am asking you to acquaint
yourself with the very serious
consequences that abortion can
impact on the woman, the unborn
child, the father, the family,
Society as a whole. These
consequences are well documented
from years of freely available
abortion and this information
is clear indeed. Please think
very carefully about the
decision you will make.

Thank you for your time
Yours Sincerely
Marguerite Dwyer

Dear Aaron Harper,

Rob. Punné's Bill to further liberalise
Abortion.

I am deeply concerned about
the above Bill, already abortions
have brought so much tragedy into
those lives it has touched and to
even think of permitting it up
to term is quite horrific in
a society that considers
itself "civilised". If you read
the book (available on line)
"The Determinal Effects of
Abortion" by Thomas S. Stahan
you will be very shocked
by what you read. Please do
not support this Bill.
with thanks.
Yours Sincerely Marquette Dwyer
