

June 19.

Dear Mr. McArdelle,

Re: Independent Rep Mr Robert
Pynes's bill to further liberalise ~~abortion law~~

I am deeply concerned about
the above Bill, in case it becomes law,
and I worry that the politicians
are not aware of the consequences
of abortion on women, men, siblings,
society; it has widespread
tentacles. It causes premature births
miscarriages, sometimes post natal
death in the newborn of a further
pregnancy (causes unknown) depletion
often leading to alcohol abuse,
drugs, suicide. All this is well
documented and can be researched.

I urge you, with respect,
to not support it in the event
of it being introduced.

Thank you for your time
Yours Sincerely
Thomasina M. Dwyer.
