Subject: Submission for drug law theorem bill
Date: Wednesday, 6 July 2016 1:47:21 PM

I wish to express My thoughts on drug law reform,
I do not see drug use as aberrant behaviour in a lot of cases regarding cannabis.
Cannabis is a medicinal herb of great value to those suffering PTSD and chronic pain also those with cancer
there is a host of other conditions in which cannabis can be beneficial,I implore you to accept the science on
Cannabinoid receptors in the brain and bodies of all people whether they use cannabis or not.
I firmly believe cannabis is of spiritual value in meditation the law has been mislead to date IMO
