Submission to Parliament House Brisbane QLD 4000

I wish to express my support for unadulterated Medical Cannabis FECO (Fully Extracted Medical Cannabis Oil)

Synthetic Cannabis Oil is a potentially harmful product developed for the primary purpose of making money for the Pharmaceutical Co's at the expense of the public, especially our innocent children. The research necessary for Medical Cannabis has been done, completed by first and foremost Raphael Mechoulam amongst many other Scientists across the globe. There is absolutely no need to conduct further research/trials to prove the benefits of unadulterated Medical Cannabis.

All synthetic and GMO cannabis products are dangerous and reckless. <http://kalytera.co/dr-raphael-mechoulam/>

I recommend the laws be changed to allow and include the growing and use of Cannabis herb into our society with no restrictions. Not only will our economy benefit but our planet will benefit

Benefits for our bodies

<http://greenflowermedia.com/article/50-life-enhancing-benefits-of-cannabis/>  
<https://www.medicaljane.com/>

Please reconsider legalising Cannabis for the benefit of all society. It was made illegal in 1937 because politicians and big Pharma do not want you, your children or anyone else to be healthy.

<http://www.drugwarrant.com/articles/why-is-marijuana-illegal/>

We the people demand our human rights and the re-legalisation of our herb firstly given to us by our Lord God above, the court system demands we swear on the bible when we stand before the judge, but totally ignores the Word of God when it comes to Cannabis ... This is heretic! One day you law makers are going to stand before our Almighty Judge, and 'that' will not be pretty!

<https://patients4medicalmarijuana.wordpress.com/marijuana-info/marijuana-in-the-bible/>

Cannabis is not Marijuana in case you didn't know! That is the name that the politicians gave it to create their false 'Reefer Madness' lies.....That one you can research!

Sincerely  
Lori Phillip
