Subject: Submission Against Inquiry Into Queensland Adoption Law Changes
Date: Tuesday, 4 October 2016 10:55:01 AM

To whom it may concern,

Please find below my submission against the inquiry into Queensland Adoption Law Changes that allows same sex couples and singles to adopt a child:

A child is a human being. Not an accessory to someone's chosen lifestyle. These children have the birthright of having both a mother and a father and should be given this right if up for adoption. Allowing same sex couples or a single person to adopt would not only take this right away but have severe consequences on that child and society as a whole in regards to their mental and emotional development and wellbeing. By allowing a minority group like this to dictate such an enormous change to what God defines as a family will in turn take away the rights of the majority. The flow on effects to our nation and society of this inquiry and bill are to large to detail in this email. We are a country founded on christian values and to turn away from these values and strong foundations will reap terrible consequences. I urge the leaders of this country to sit back and take a good hard look at how this issue will affect our country and contribute enormously to its decline.

Yours sincerely,
Anna Fabian
