Re: HCDSDFVPC - Inquiry into the Wynnum and Mermaid Waters Ambulance Station projects - call for submissions

Dear Mr. Hansen,

In response to your emailed request on Wednesday 28th November 2018, Destravis provides the following summary of our involvement with the above-mentioned project (Wynnum Ambulance Station).

Destravis was engaged in the consulting role of Technical Advisor to Metro South Hospital and Health Service (MSHHS) for development of a parcel of land previously occupied by the Moreton Bay Nursing Home. Part of our role was to propose boundary lines and building placement (siting) for a new MSHHS Community Health Centre on the parcel. We were also requested to indicate boundary and potential building placement for a future Queensland Ambulance Service (QAS) facility on the parcel. This task was informed by technical information (indicative facility plans) provided to Destravis by QAS at that time. The proposed boundary was submitted to QAS for approval and acceptance was received.

Destravis had no further involvement with the design or delivery of the QAS facility.

Should you require any additional information, please do not hesitate to contact me.

Regards,

Gunther De Graeve
