Subject: Recommend against the Health (Abortion Law Reform Amendment) Bill 2016
Date: Tuesday, 20 September 2016 6:35:26 AM

Please accept my submission to the enquiry.

I would like the Committee to vote against the Health (Abortion Law Reform) Amendment Bill 2016 put forward by Independent MP for Cairns, Rob Pyne.

The bill allows for the killing of babies up until the day they are born.

This will leave hospital staff traumatised as they are asked to kill still living babies when saving lives is what they are trained to do.

The after effects could be catastrophic to their well being mentally and physically and may cause significant problems to our state in years to come, in mental health issues and lost productivity.

I urge the Committee to show how terrible the consequences of this bill will be and ask for protection for the babies and the medical staff, so both can have a future.

Yours faithfully.

Deborah Wassenberg
