---

Dear Health Committee,

I do not agree with the Pyne Abortion Law Reforms and think that they are outrageous.

Please respect life even in the form of a fetus who is a human life made by God. Please do NOT pass these abortion laws. They will create a society that will take no responsibility for their actions and a society that think they can get away with anything.

I stand with millions of other law-abiding, like-minded citizens who are God-fearing Christians.

Please listen to your conscience!

Kind regards  
Elmarie Richards
