HONORABLE MEMBERS,

Abortion was a problem 500 years before Christ.

That is why Hippocrates composed his Oath, which prohibits:-

1. SEDUCTION of males or females and not just the patient, but anybody in the patients house.
2. ABORTION which you might need after breaking rule #1.
3. EUTHANASIA which is a handy way to pay off the mortgage.
4. INCOMPETENT practice = making money from damaged patients.
5. PUBLISHING proper secrets whether learned at work or elsewhere.

I am happy to say I have always kept the oath. The hardest thing is the original decision to avoid evil.

I was pathologist to Central Queensland for 35 years.

I was involved in discovering the cures for two fatal diseases in my own laboratory viz. HIV and Amoebic Meningitis.

I processed 30 murders and actually believe in the death penalty for major criminals.

I am sickened to think about abortion - the death penalty for the innocent.
