Subject: Abortion Bill presented to Qld Parliament by Mr Robert (Rob) Pyne MLA member for Cairns.

I wish to present my deepest objections to this Bill, I find it completely abhorrent that anyone would consider and even approve of aborting unborn babies up to 9mths, it is purely an act of murder, before parliament considered this bill it should be made mandatory that all Members of parliament should watch a actual abortion being perform, it is one of the most shocking things I have ever seen.

It makes me sick to think a doctor who should preserve health are killing healthy babies, and worse still Female nurses are assisting them, it is offer said which is an excuses to legalise adoration how about the women who get raped they should be able to have an abortion, I disagree with this also, there are hundreds of couples who can't have a baby and want to adopt a baby and can't or find it very, very difficult to do so.

The number of babies that are conceived through rape are very, very low compared to the thousands who are aborted daily simply because the woman doesn't want it anymore.

I also believe that it should be made law that a woman who wants to abort a baby should also sit and watch an actual abortion being performed and proper counselling and support be offered to her.

I offer the above with the hope that this bill will be defeated and common sense will prevail.
