To Whom it may concern,

My Prayer is that life in the womb will be given a chance. Please give anyone thinking about abortion to have a scan first to actually see what is there, heart beating life. If anyone has a procedure Dr show the mass eg of cancer ect. Before they confirm to the patient that they need to operate this is a life, at least do the same.

We need more adoptions, less fostering and no abortions.

Yours sincerely Vasilia Vorgias
