Subject: Abortion is wrong - stop the fiddling
Date: Wednesday, 28 September 2016 11:36:56 AM

I 've been around for quite a while and seen some amazing things: The best and worst of human nature.

*But having missed out on WW2 (and the consequent Nuremburg trials) I found myself trying to work out what was **the greatest horror afflicting man-kind since then.***

*On any measure, whether economic or familial or personal - it is **the scourge of abortion** or more accurately the scourge from those people claiming to be 'good' but who demonstrate a complete lack of truly sustainable values – ie. those "values for good" which don't entertain evil based on subjective values or 'short-termism'.*

Children have been killed in the hundreds of thousands; likewise, women have been seriously harmed and scarred by abortion and its associated profit motive. How could this crime against humanity happen? Easily – when 'good' people succumb to such false 'arbitrary reasoning' and choose to rationalise away the scientific facts. Fathers too have been neglected by the political agenda, instead of being urged to be fathers to their offspring; is it any wonder domestic violence has worsened when so much is reduced to instant self gratification?

*So many of us fail the being 'good' test – **whenever we are put under pressure.***

Please don't acquiesce to the evil short term pressures of a political agenda.

The Pyne bill must be soundly defeated.

Kind regards

Paul Groves
