Dismiss this bill. A blight on us as a society.

We protect animals, sea creatures, birds, reptiles even when they harm our society.

We murder, cut their spinal cords, suck apart, chemically scald our innocent unborn in the very place of nurture and protection. H U M A N E ? ? ? I don't think so.

58 adoptions against 80,000 murdered babies under the respectful ? guise called ABORTION - sick. There is no reasonable argument to even consider this.

ABORT THIS BILL is the only humanly reasonable response.

P.S. who is being held responsible for the 12 babies aborted and still alive but left to die - in hospital ! ! !
