---

Hi Health Committee,

I am writing to state my opposition to the proposed abortion bills, both to allow abortions of full term pregnancies and for women to organise their own abortion from home. This legislation is reckless and puts the wellbeing of women at risk.

As a registered midwife in Queensland I understand the price of grief paid by women even when they choose to terminate a pregnancy under current laws, this along with the risk of complications terminating an advanced pregnancy alone should prevent its legality.

Sincerely,  
Amy Plowman
