Subject: Weakening of QLD abortion laws
Date: Wednesday, 28 September 2016 2:41:23 PM

Dear Health Committee

As a Queensland resident, I implore you to reject and oppose the new bill which proposes the weakening of our abortion laws. Not only does this bill reduce the protection of women, but it allows for the termination of a full-term foetus which, by this stage of pregnancy, would be a **fully formed** human being. Technically then, this would be the same as legalising murder.

I believe that, if this bill (and its predecessor) is ever passed, it would in time lead to the possibility of any living human being who may be (considered by some) not 'perfect/normal', and/or may be a burden on society (the state) being **legally euthanised**. The thought is absolutely horrendous and this must never be allowed to occur.

Thank you for your consideration in this matter

yours faithfully

Anita Robinson
