**The Chairperson,  
Health Committee--Submissions.**

**Dear Sir/Madam,**

**I wish to make known to you my very strong opposition to introducing the Pyne Abortion Bill. Within the womb of a pregnant woman is a live human being, just as alive as any of us on this earth, and known so by our Creator. Abortion is nothing short of cold murder, no different than if the child were born. Sometime in the future, a woman who has agreed to abortion will be badly affected in her health when it dawns on her what she has done. Those party to it will have to answer to their Creator for their actions also, and pay the penalty. There will be no leniency for their ignorance and their cold heartedness.**

**Any member of parliament giving this bill their vote, will be just as guilty as anyone else who is involved in an abortion.**

**Yours faithfully,  
Daniel Frangos**
