To whom it may concern,

Not so long ago I signed an e-petition opposing this Bill to legalise abortion on demand. An e-petition which received more signatories than any other e-petition ever posted in Qld. However, I am informed before this matter could be completed, another Pyne Abortion Bill has been launched. I wish to appeal to you as the Health Committee to strongly recommend this Bill not be endorsed but rather the sanctity of the unborn life be protected. Please acknowledge the strong opposition of the Qld people to this Bill and see it defeated and not return again in another format.

Yours faithfully,
Alan Grieve
